AIMFOX PROFILE

Outsourcing has become the new normal!

ABOUT US

Company Description

Our diversified, competent, and professional team is always willing to help our clients. Our knowledgeable, experienced, and professional people are working for you and their objective is to achieve the best for you. Through our close relationship and the high-quality services offered, your objectives, strategy, mission, and vision are achieved.

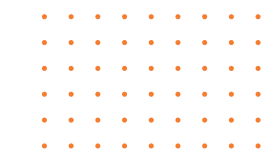

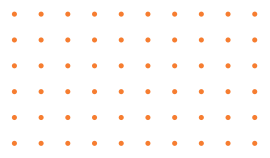

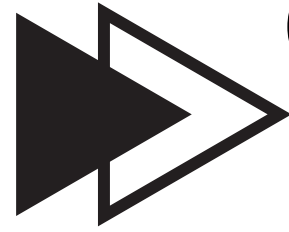

We started in 2018 with a vision to overcome the challenges of the accounts outsourcing business. The management team comprises professionals with several years of experience in accounting and auditing.

Being a mid-size firm, we intend to provide you with more customized and tailor-made solutions that feel like an in-house accounting team

30+ PROFESSIONAL

INTERNATIONAL CLIENTS SERVED

100+

DATA SECURITY

We take keeping your information safe very seriously. It's a big part of our values. We promise to keep your details private, regularly check and control the safety of your information, and never share how we do our work for other companies. Only the right people have access to important information to make sure it stays secure.

REMOTE ACCESS

- We work through secure remote access to ensure that **no data is downloaded without your permission**. If we do need to download any data, we delete it once it's no longer needed.

SECURITY TRAINING

- We're making sure our company stays safe by **giving employees special training**. They'll learn how to protect our info online and spot tricks from bad guys. The training helps everyone be like superheroes, guarding our digital and physical stuff. It's not just about keeping data safe, but also making everyone feel part of a secure team.

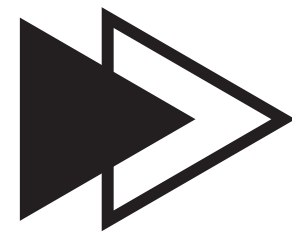

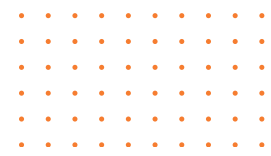

RESTRICTED ACCESS

- To further enhance our security measures, we **do not allow any pen drives or personal email access** on the computers we use for accounting purposes

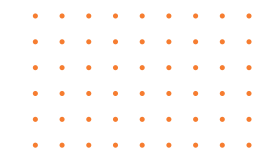

ACCESS CONTROL

- We establish **strict access controls to limit the number of people** who can access your financial data. This ensures that only authorized team members can view and work with your sensitive information.

ONBOARDING PROCESS

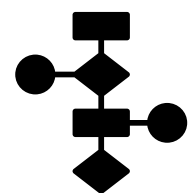

STEP 1

Requirement Analysis

Understanding your requirements and identifying the areas in which we can work together. We aim to provide a customized solution and identify the areas of work where we can work for your growth.

STEP 2

Customized proposal for you

Based on your requirements, we will come up with a customized staffing solution on how you can leverage remote staffing and grow your business. Your requirement can be one-to-one staffing or one-to-many where you will be having a team leader to take care of your remote staff. We intend to work as your team member and not just a service provider.

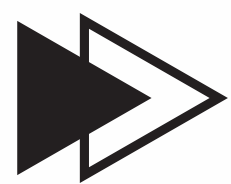

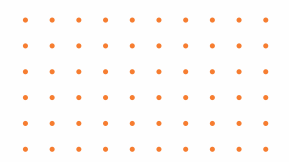

STEP 3

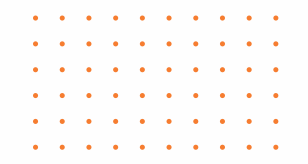

Work finalized, tasks begin

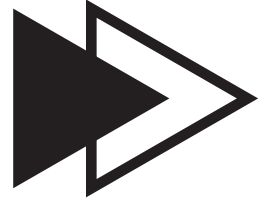

As your new team member, we will be starting with a few assignments and getting a dedicated team assigned for your work under a Non-Disclosure Agreement. The experienced team member will be first educated about your company and how you do things.

SOFTWARE EXPERTISE

CONTACT US

Thank you, and I hope we'll get the opportunity to be a part of your growth journey soon!

Let's have a one-on-one online meeting and see if we can add some value.
